The attack on Bondi Beach, Sydney:

Dec 14th, 2025

As the sun began to set over the Eastern Sydney sub-urbs on the evening of December 14th, thousands of people had gathered as usual at the famous Bondi beach. From them, around a thousand Jews who congregated that Sunday at Archer Park to celebrate Hanukah, the so-called 'celebration of light'- when the darkness of their *shirk* (polytheism) and *kufr* (disbelief) finally caught up to them.

Two knights from the soldiers of Allah the Almighty; **Saajid Akram**- may Allah accept him- and his son **Navid Akram**- may Allah hasten his release- were positioned on a close-by bridge overlooking the park where they knew according to prior reconnaissance, the pagan Hanukah festivities would be taking place.

By **6:40pm**, in an instant, the heroes attacked with their rifles and began opening fire on crowds of Jews.

Allah the Almighty's punishment had befallen the Zionists by their hands, beginning their operation

of vengeance for the blood of the Muslims.

Fifteen minutes was enough for the two mujahideen to express their rage over the collective genocide ongoing in the Muslim world and in Palestine.

The blessed attack led to the death of fifteen Zionist enemies of Allah the Almighty according to reports. From them **Rabbi Yaakov Levitan**, who worked in a Jewish court in Sydney where they changed the laws of Allah the Sovereign and **Rabbi Eli Schlanger**, a leading figure in the 'Chabad Mission'- a Hasidic Jewish Organization based in Brooklyn dedicated to spreading misguidance and *shirk*.

In addition to this, over forty others were injured from the Zionist wrongdoers of the world- who were previously content to undermine the sanctity of other humans before justice struck them.

As the battle between *iman* (faith) and *kufr* (disbelief) was undergoing, the enemies of Allah the Almighty, the Australian police arrived and then further clashes lasting fifteen minutes occurred, to be recorded in the history of valor with ink from blood.

In those critical moments, Saajid

The hero Navid Akram during the blessed attack.

Akram was elevated as a martyr as we perceive him and Allah the Almighty is his judge- achieving what was the wish of the Prophet- may peace and blessings be upon him. He didn't allow vain desires to weaken his resolve nor was his determination to be weakened in front the flood of tyranny and oppression. So glad tidings to him- for he by this worship, rose to the highest levels of honor and for him is- by the permission of Allah the Almighty- what He promised him. So, to the everlasting gardens, to the heavens as expansive as the earth and the skies- indeed it's a true success by the Lord of the Ka'bah.

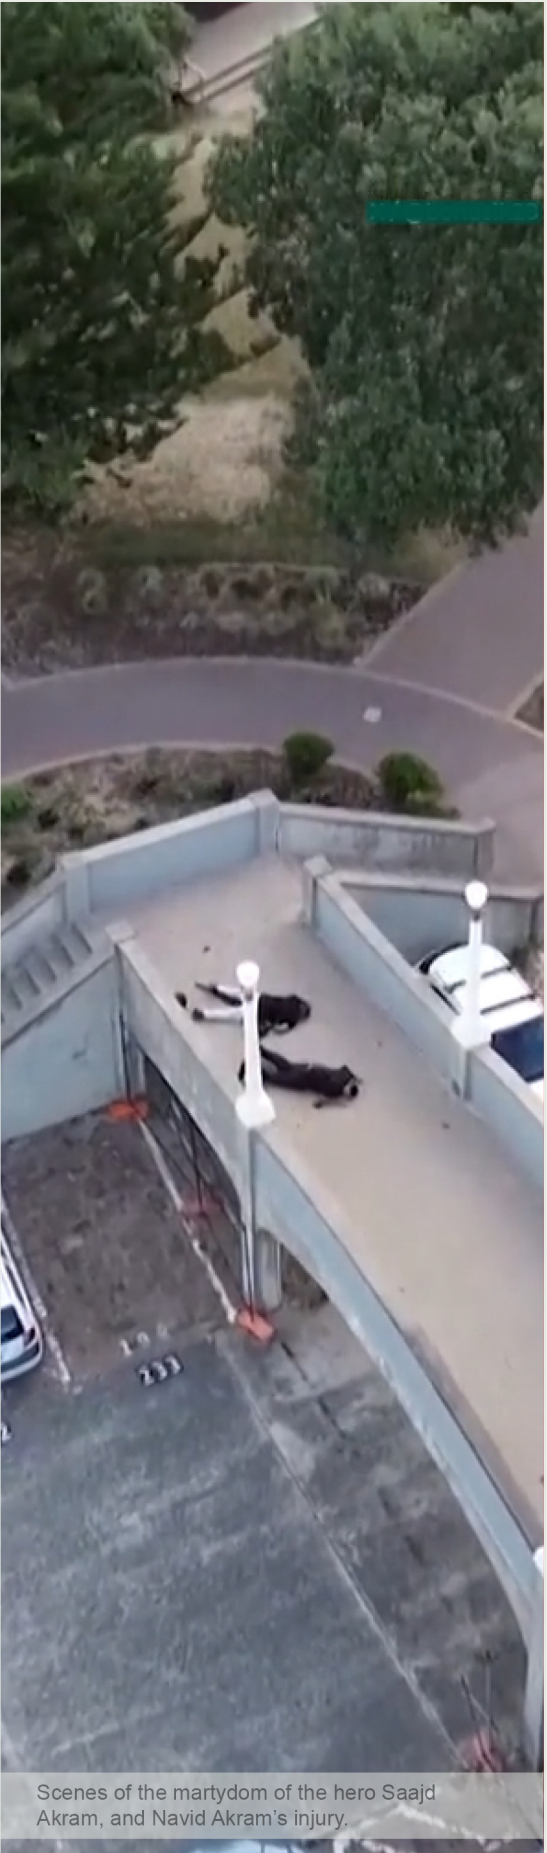

As for the hero Navid Akram, he continued the battle for his reli-

gion and Muslim nation until he was afflicted in his chest by a bullet of the cowards.

Despite the pain flowing through his body, he valiantly tried to stand up and raise his weapon another time, but the cowardly police piled upon him until he fell into their grasp. This is the wish of Allah the Most Wise; that he would be imprisoned and thus begins a new stage of his life in the University of Yusuf. We ask Allah the Almighty to free him swiftly so he may continue his journey on the noble path of jihad.

The reaction:

We saw the expected reactions- empty of any substance or depth in thinking from a world of intellectual zombies and black-mailed leaders. The Zionist extremist Trump as usual couldn't find except empty words only filled with hatred towards Islam and Muslims.

He explicitly said, "all nations must stand together against the evil forces of radical Islamic terrorism"-like a new copy of President Bush who said indeed his war against Islam was a "crusade", going on to foam at the mouth, excreting words which hardly resembled speech.

As for the enemy to humanity, Netanyahu- then recycled his favorite word: 'antisemitism'- using his silver bullet scape goat to apply political pressure upon the Australian government and those all over the world to take a more serious and active approach towards 'antisemitism'. He didn't stop there- but went as far as to blame Australia's recognition of Palestine as a state for the reason behind this sacred clash.

Pushing for tighter, harsher restrictions on protests, slogans, and social media posts.

But this was just the tip of the iceberg which Anthony Albanese, the prime minister of Australia was required to deal with. The Australian government was forced to take last minute desperate anti-gun measures, as a result of the weapons legally owned by Saajid Akram. Leading to a difficult and messy logistic battle to record countless weapons and then trace them back to their licensed owners.

While following the events, we saw police forces all over the world

frantically spread out through the streets at nearly every Jewish site, especially at any Hanukah celebrations which were not already cancelled. Proving safety is not a privilege enjoyed by tyrannical oppressors nor their supporters who quietly cheer for the extermination of the oppressed. Furthermore, if we ponder over the chain of events, we can't help but to notice the stark trend in recent attacks- from the blessed operation of the mujahid hero Jihad As-Shami carried out on Yom Kippur to the hero Saajid and his son Navid during the Hanukah celebrations.

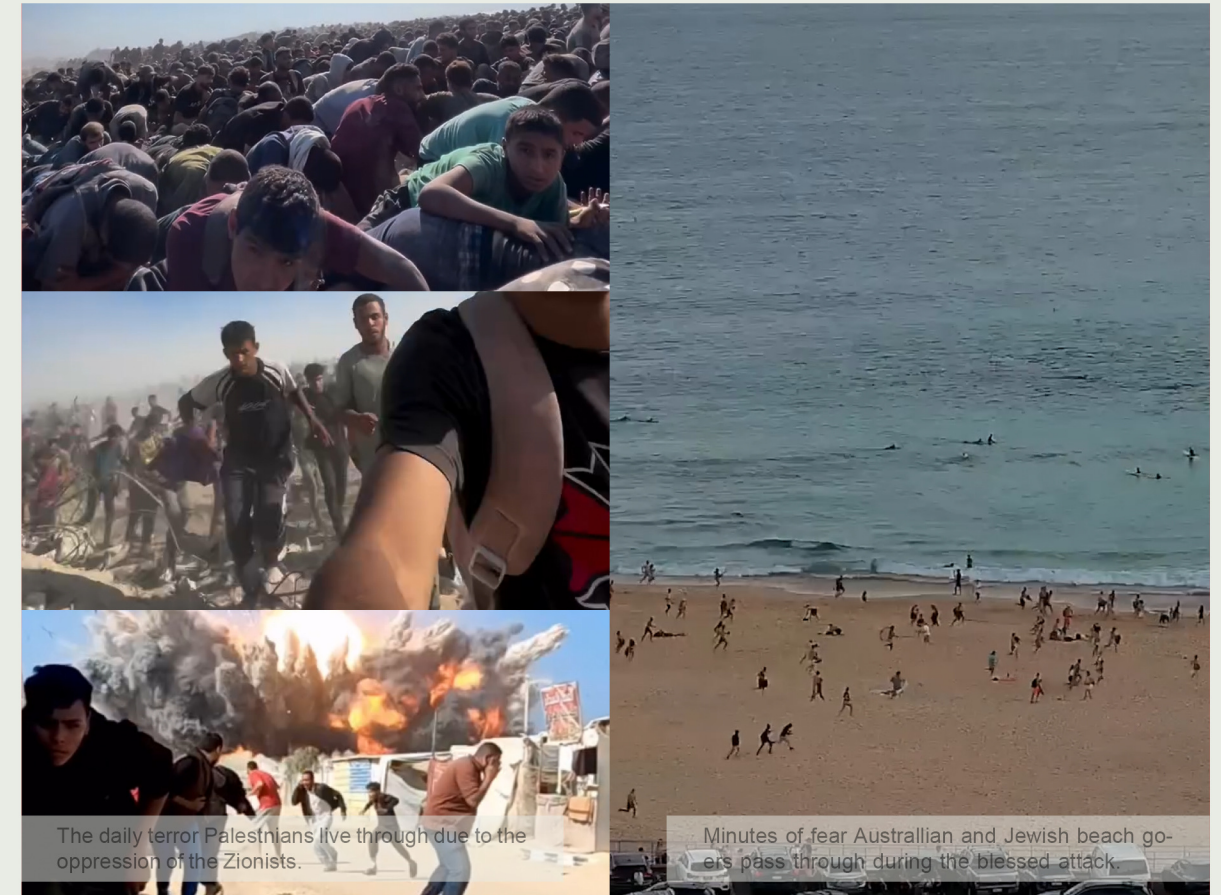

Anthony Albanese in his speech after the attack, crumbling under international pressure and blame.

The fear which struck into their hearts was accompanied by a series of tight security protocols. This blessed attack rippled in the security sector- which has caused further and wider security measures to be taken in the streets. Increased fear and worry are the norm now throughout numerous security outfits and organizations.

Jewish leaders around the world expressed their worry and fear-as the mask of security and confidence they once cloaked themselves with had shattered. Now they face their true fragility in their own communities. This

feeling which has now engulfed them, is the same feeling which the Palestinians have known for over seventy years where war was, and still is their daily life-however it is far from the same, for what we feel in the path of truth is an honor, and what they feel is but a portion of the worldly punishment preceding their everlasting torment.

The Guardian described the holy battle as “ten minutes of terror”, but they forgot or tried to forget-at least- the fact that these minutes didn’t amount to anything in front of over seventy long years of daily terror-which the Palestinian peo-

ple suffer. Nearly eight decades of endless destruction, genocide, rape, false imprisonment, poverty, starvation, and eviction.

Other ‘news’ outlets saw it as meaningless terror- disregarding the blatant and clear motivation for what happened which was an attempt to respond to the continuous atrocities which the Zionist occupation shamelessly commits against Muslims in Palestine coupled with the continuing global oppression and subjugation of Muslim minorities.

These media platforms failed to fulfil their uppermost obliga-

tion which is conveying impartial factual news. Rather, they were unfortunately satisfied with lazily spreading the false and reoccurring rhetoric which upholds this cruel and tyrannical system’s foot on the chest of the people, silencing their truth.

While many conformed to social norms, there existed a minority who understood the logic behind this attack. Comprehending that it was the natural reaction and a completely justified one. What else could you expect after nearly seventy years of humiliation, dictatorship and ethnic cleansing which was practiced against

the Palestinian people at the hands of the Zionist entity and their Western supporters and against the Muslims as a whole? Whereby we saw one mention on social media, commenting on the blessed attack- "this is the Lord of the oppressed, so where is the tyranny of the Zionists?"

And the summary here is that attack was an ideological awakening and a heavy message which echoed in the minds of world leaders and elites.

Saajid and Navid Akram made clear to those unaware- that the Muslim nation, irrespective of the number or strength of the forces which conspire and come together against her, will never be silent in facing oppression- and our reactions will continue. It isn't possible for our enemy to know where nor when, until the time comes where there is no escape from accountability.

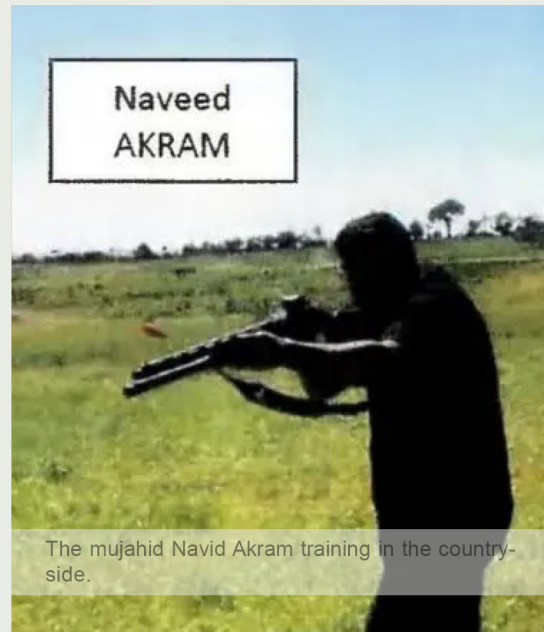

What we benefit from the attack:

1.Preparation: The Australian police confirmed that “the pair planned the attack with precision for months”. They spread pictures of them training using rifles in the Australian countryside. We benefit from this the importance of preparation as a worship which Allah the Almighty made obligatory upon His slaves by saying *﴿and prepare from them with what you can from strength...﴾* Al-Anfaal (60). and its relevance in proving sincerity in your work as He says, *﴿if they wanted to go out, they would have prepared for it...﴾* At-Tawbah (46).

Therefore, preparing spiritually, physically, and mentally is an obligatory worship and By carrying out the blessed worship of preparing in the path of Allah the Almighty, the believer finds ease and success throughout any jihadi work which they proceed with by the permission of Allah the Most High.

2.Home-made explosives: The mujahideen heroes Saajid and Naveed's usage of home-made explosive devices. Here we see the possibility of creating explosive devices in your own home, from ingredients found readily available in the West. They were not chemists nor physicists nor bomb experts- so if Saajid and Naveed- may Allah accept them- were able to create these devices then what's stopping you?

Homemade explosive devices the pair assembled.

3.Financial drainage: This blessed attack has placed massive political pressure on the governments in the West as a whole which are forced now to concentrate their efforts in protecting Zionists, not only in Palestine as they were, but now in their own countries which will place a massive economical strain on any government. Imagine if these attacks were consistent, well planned and focused.

4.An eye for an eye: They struck fear deep into the hollow hearts of the Zionists and those who support them in every place, even though this is minute in comparison to the fear felt on a daily basis by the oppressed all over the Muslim world.

5.Wakeup call: They woke up masses of unaware Muslims and non-Muslims. Showing the issue to some Muslims is not limited to social media posts and marches. Instead, for the sake of victory, some sacrifice their selves cheaply in the path of Allah the Almighty and to uplift this dark oppression which looms over this noble ummah.

DESIGNING A TIMED HAND GRENADE

The AQ-Chef

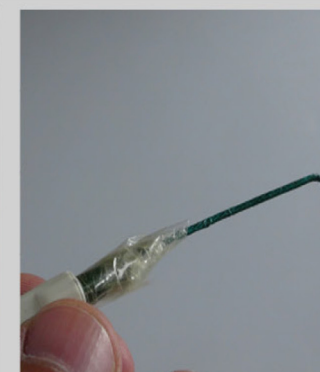

MAKING A TIMED HOME GRENADE

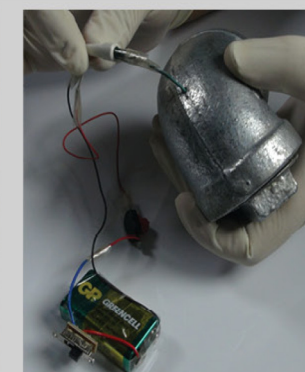

MAKING A HAND GRENADE REQUIRES 3 STEPS:

A - DESIGNING THE CIRCUIT

B - PREPARING THE IGNITOR

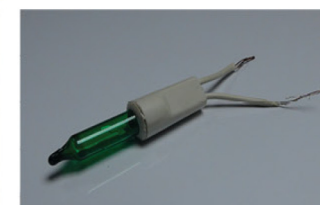

C - PREPARING THE GRENADE

A DESIGNING THE CIRCUIT

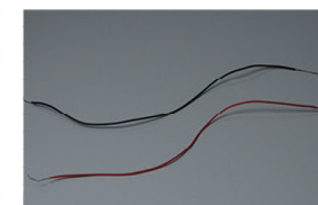

ITEMS REQUIRED

1 - 9v Battery

2 - Christmas Lamp

3 - Two wires, red and black

4 - Toggle switch

5 - Push switch

OBTAINING THE SWITCHES

A- SAFETY SWITCH

This type of switch is mostly found in electronic devices. Here we used a switch from a small lamp.

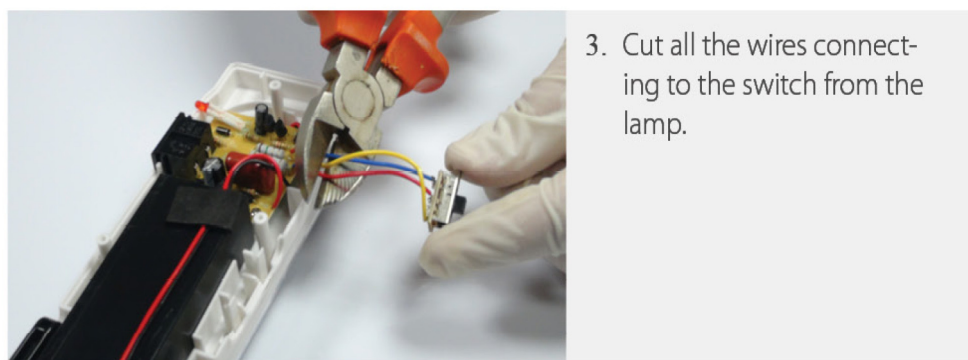

REMOVING THE SWITCH

1. Remove the outer cover of the outer switch.

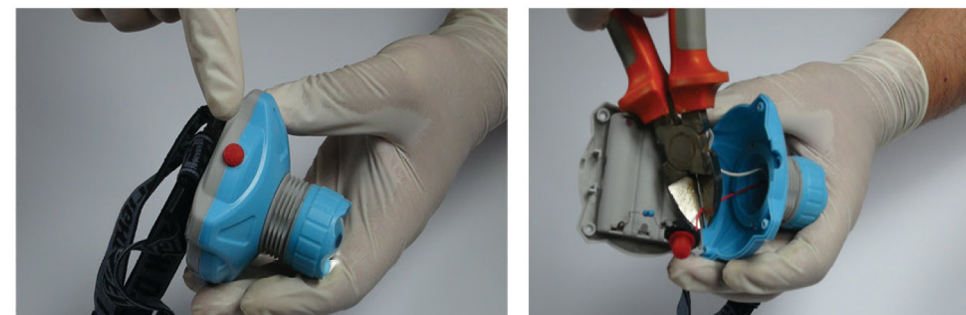

2. Unscrew the lamp and dismantle it.

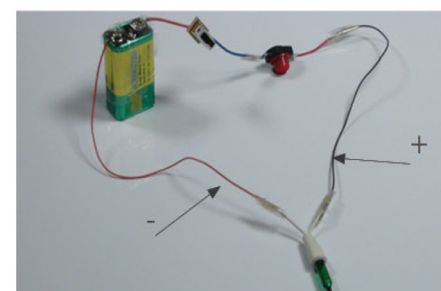

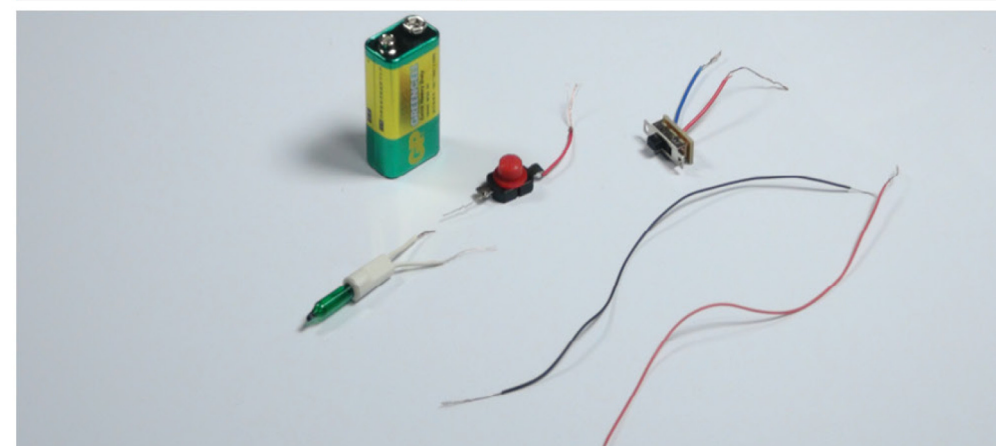

3. Cut all the wires connecting to the switch from the lamp.

B - THE EXECUTION SWITCH.

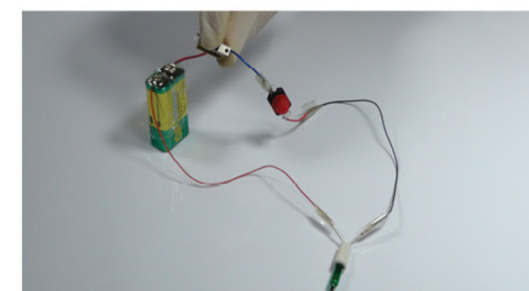

This push switch is found in a variety of devices. we obtained it by removing it from a lamp, using the same method as above.

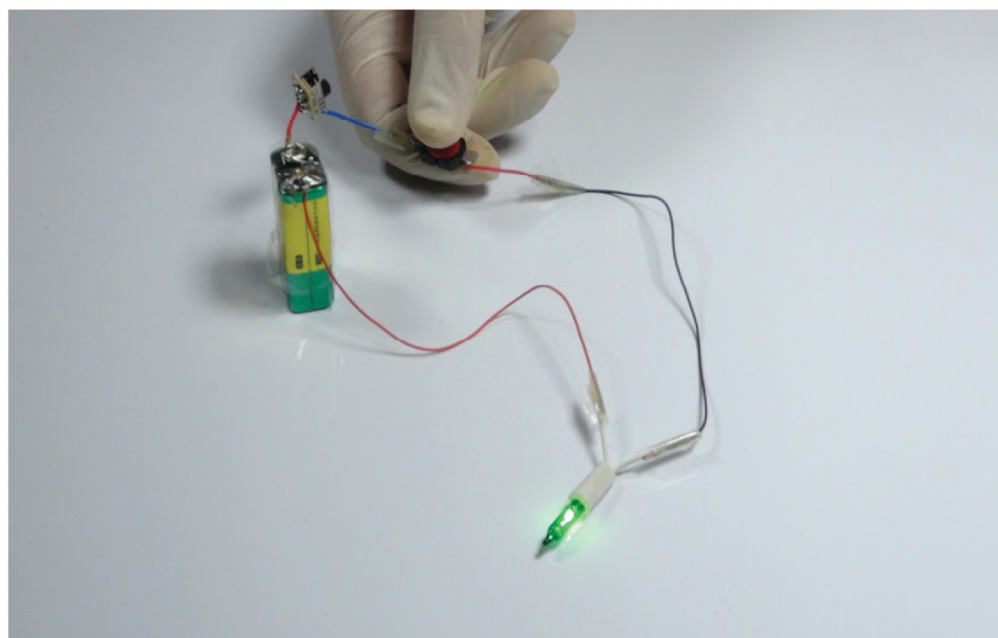

CONNECTING THE CIRCUIT

1. Connect the two switches using the same positive wire. Then connect the entire circuit.

2. We open the safety switch (switch-on the toggle switch).

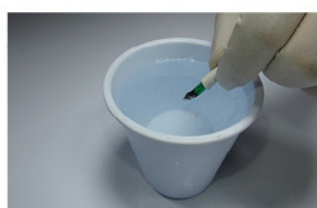

3. When we press the executing switch (Push Switch), the circuit is connected.

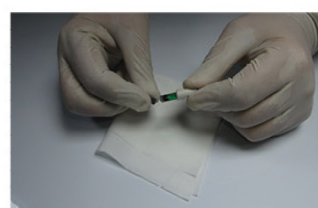

B PREPARING THE DELAYED IGNITOR

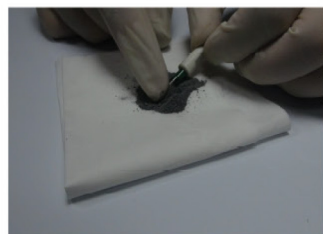

1. Gently heat the tip of the lamp.

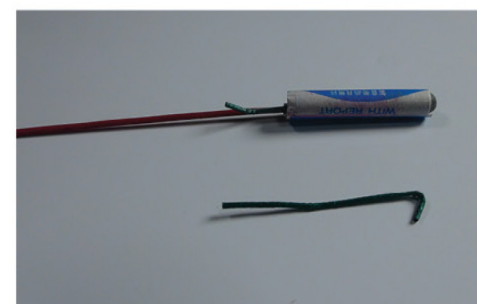

2. Immediately dip the lamp in water.

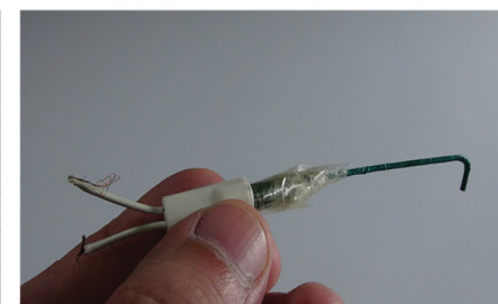

3. Cautiously break the head of the lamp

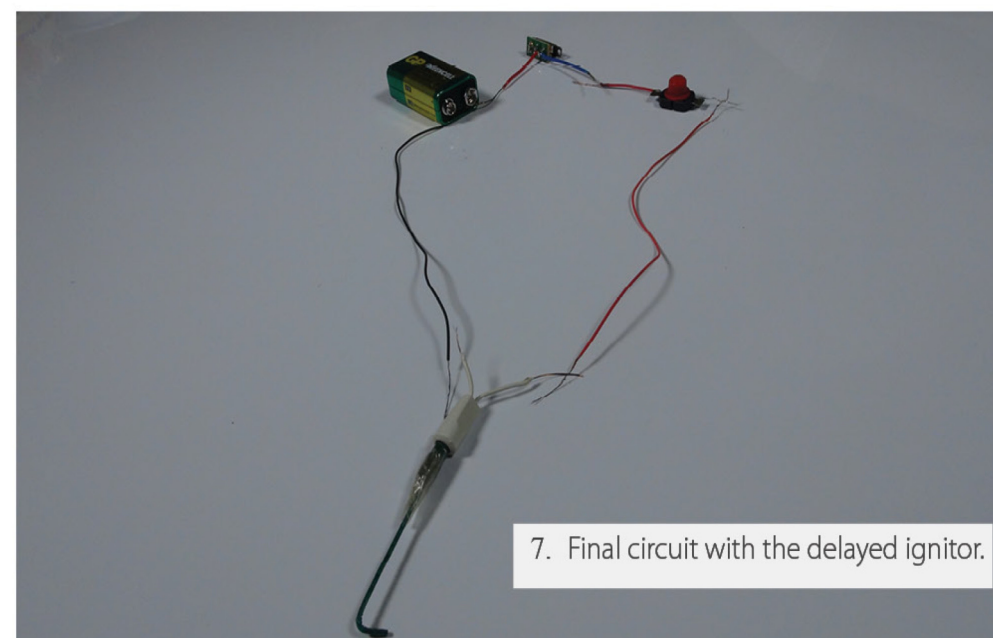

4. Fill the lamp with fireworks powder.

5. Remove the fuse from the firework.

6. Insert the fuse inside the lamp, and close it firmly with a tape.

7. Final circuit with the delayed ignitor.

C PREPARING THE HAND GRENADE

1. We will use a 1.5 inch metal elbow pipe, as shown above.

2. Drill a small hole as shown.

3. Place shrapnel in the inner sides of the pipe using glue.

4. Final results after attaching shrapnel.

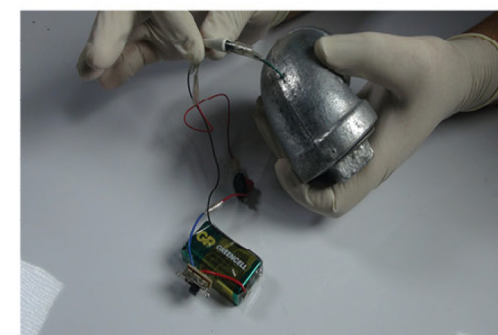

5. Fill the pipe with fireworks powder.

6. Wipe the internal screw thread with a cloth so as not to ignite the fireworks while sealing the pipe.

7. Close the pipe.

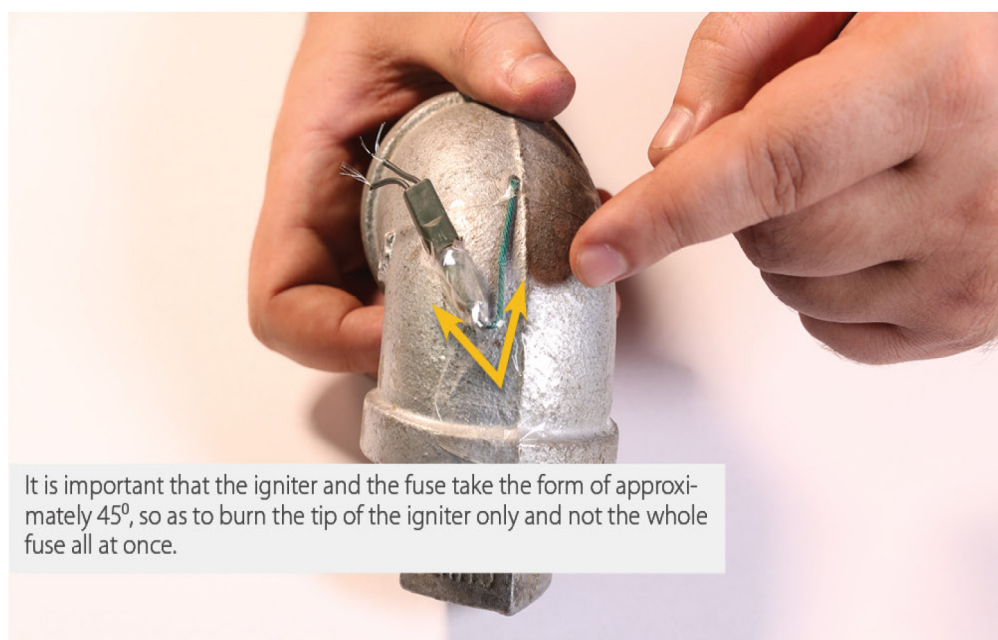

8. Insert the fuse inside the drilled hole.

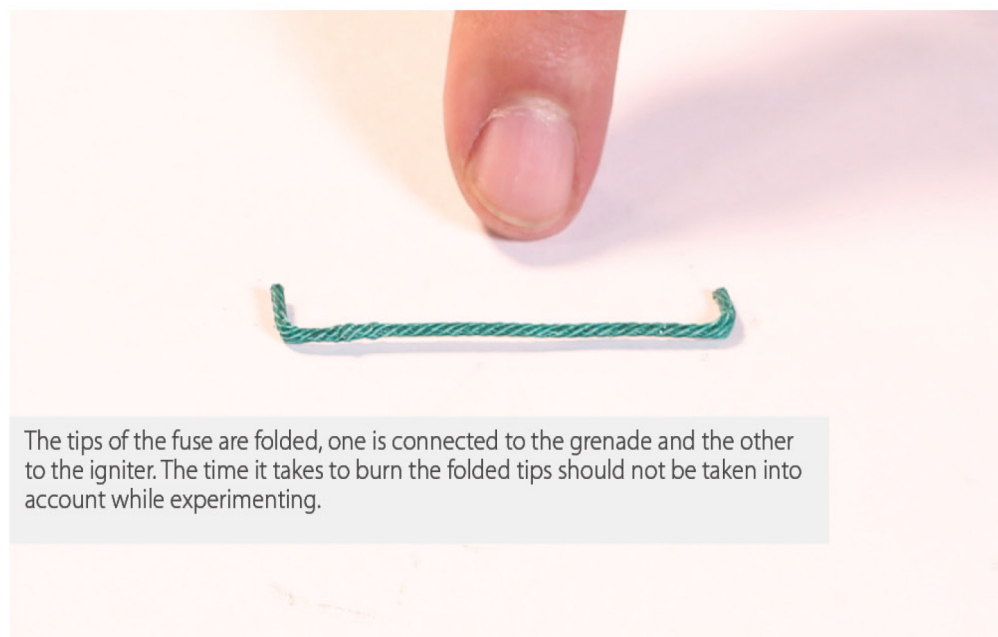

And now this simple timed hand grenade is ready for use. When the trigger switch (toggle-switch) is pulled and the execution switch is pressed, the grenade will delay for three seconds then explode.

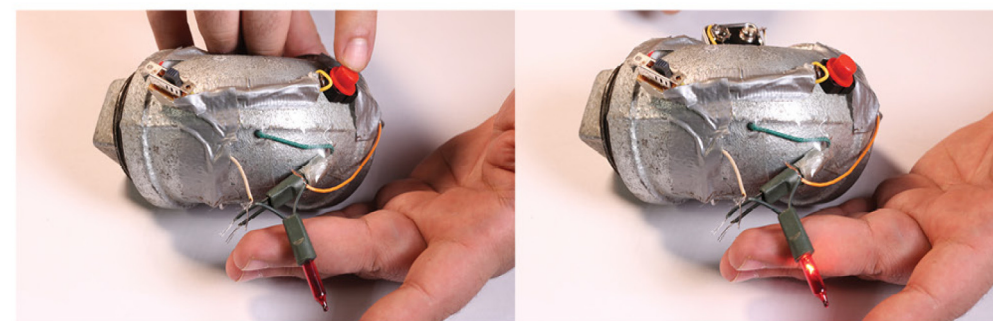

D SAFETY AND PRECAUTIONS

It is important that the igniter and the fuse take the form of approximately 45°, so as to burn the tip of the igniter only and not the whole fuse all at once.

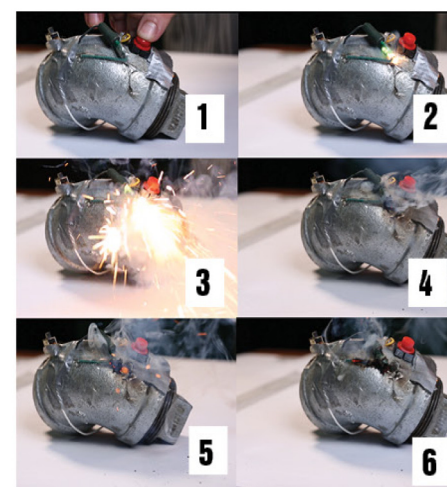

The tips of the fuse are folded, one is connected to the grenade and the other to the igniter. The time it takes to burn the folded tips should not be taken into account while experimenting.

- Confirm and test the circuit using a Christmas lamp before connecting the wires to the fuse.

E EXPERIMENTING

It took approximately 3 seconds for the fuse to completely burn

EXPERIMENTING WITH THE EXPLOSION

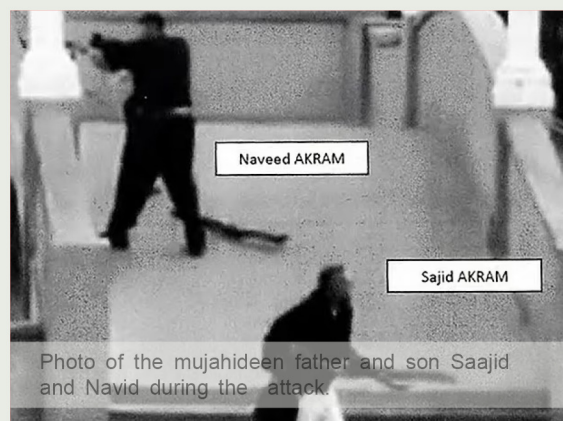

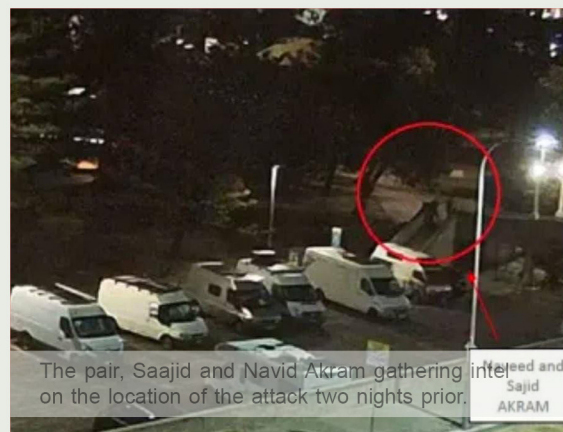

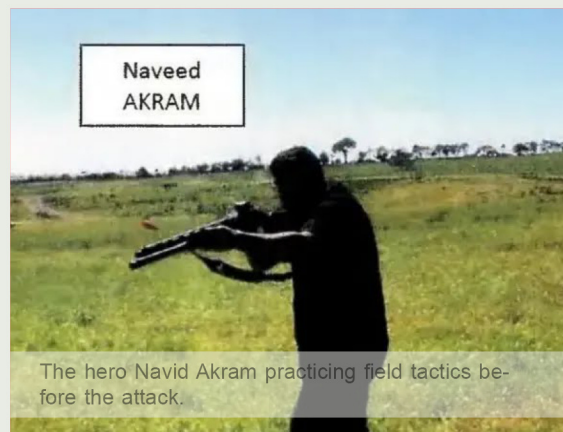

Final Message:

While the mujahideen heroes watched the barbaric occupation of Palestine at the hands of the Zionist criminals and while they saw the killing, rape and starvation faced by Muslim men, women and children, their hearts, their belief in Allah the Almighty and his promises didn't allow them to sit behind like many others.

They were moved beyond likes and posts or protests and marches. They turned to the secluded countryside to undergo their training. They practiced using their weapons and tactical strategies-taking their means and preparing what they could. They didn't allow fear nor doubt nor their love of the worldly life to prevent them from helping their Muslim brothers and sisters.

They weren't limited to only preparing their skills, but they prepared the necessary tools for the blessed attack such as the home-made explosive devices. Also, as we know the police found a larger explosive device in their car. After taking the available means, they headed to the beach two nights

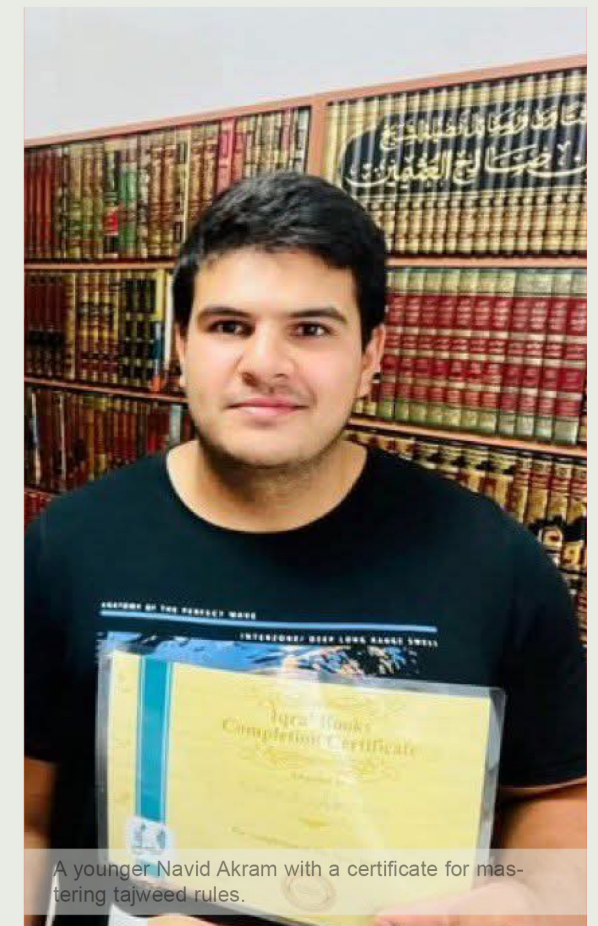

before the attack, gathering intel and mentally preparing for the attack.

With their understanding of the area and their weapons, they returned to their Airbnb, reciting the words of Allah the Almighty, and remembering their mission. There was nothing left except to carry out the obligation which Allah the Almighty placed upon them.

They waited for the right moments and carried their mission in the most complete fashion, Allah the Almighty cooled the hearts of the believers by the actions of Saajid-may Allah accept him- and Navid-may Allah hasten his release. They sent a message to the world that we do not recline to silence. And we are always ready to return the truth to its rightful place regardless of the apparent strength of the tyrants and regardless of who turns away or betrays our cause.

So glad tidings to them for they made their brothers and sisters in Palestine, and every corner of the Muslim world happy. Whoever lost friends or family at the hands of the Zionist occupation, every person whose honor was trampled, every child whose innocence was stolen, every unanswered cry, every hungry stomach, and every op-

pressed Muslim who raised their hands to Allah the Almighty asking for a helper. Allah the Almighty answered their call through honoring Saajid and Navid to respond to their cries with whatever they could from that which they found available. So, they raised their weapons and threw their bombs and cheaply sacrificed their souls in the path of Allah the Almighty and for the sake of the people in Palestine and Muslims all over the world, hoping for their reward from Allah the Almighty.

As long as the Muslim nation suffers oppression, Allah the Almighty

will raise for it, real men. Men who love Allah and He loves them, soft and kind to the believers, harsh and severe against the disbelievers, fighting in the path of Allah the Almighty, not caring about the blame of the blamers.

They refused to sit back with their families and friends in safety while those who leave off jihad live in humiliation while the ummah suffers under the worst forms of oppression witnessed in the world's history.

Finally, to our dear readers- it's a must, now-to choose; either live as a coward until you become accustomed to this feeling or sacrifice for the sake of the truth, honor, and sanctity of the Muslims, thereby achieving dignity for yourself and your religion. The least you can do today as a Muslim living in America or Europe is what Saajid-may Allah accept him- and Navid Akram-may Allah release him- did. Look around you, don't let the interests of the Americans and Zionists survive for another day, strengthen your resolve, and remove your fears and rely on Allah the Almighty *and whosoever relies on Allah then He is sufficient for him*.

We ask Allah the Great, Lord of the great throne, to help anyone who wants victory for Islam and to raise the oppression from the ummah. We ask Allah to guide their vision and throwing, and to reward them. And our last call is all praise is Allah Lord of the Worlds.

And our resolution asks me, why cowardice and weakness,

And our worlds have been filled, with tyrants of different kinds,

To undermine our aqeedah, and in them lies danger,

O' my brother, a great strength, the path of Allah is your goal,

Do you fear death -and your death is your heaven?

The pillars of Islam are not strengthened, by voting nor defeatism,

So other than the sword does not benefit, An oath O' youth
